## **System Navigation**

Use System Navigation throughout Canvas to find your way to your different courses and to system-wide tools and settings including Account settings, Calendar, and Help.

## **Course Navigation**

Course Navigation could potentially be different from course to course as different courses have different needs. All courses will likely have a way for you to navigate course content and see your grades. Some courses may group content into "Modules" while others may link "Pages" together.

- The <u>Calendar</u> (found in system navigation) is a great way to see posted due dates for assignments.
- Customize your <u>Notifications</u> from Canvas to get the most important updates via email or SMS text
- On the Dashboard you will find your To Do List which will show you assignments and events that are coming up for your course
- The <u>Grades</u> link in the course menu will take you to to your grades for that course and be sure to check out the What If **Grades feature.**
- Depending on the course, you may view **Assignments** from the Assignments Link in the course menu or through Modules. Once graded be sure to look for Grade Comments as well as in-line **Feedback**
