

# M.S. Applied Behavior Analysis

## ABOUT THE PROGRAM

The program prepares students with training in the science of learning and behavior and prepares them to work as Board Certified Behavior Analysts (BCBA). Behavior analysts work directly with individuals to improve their social, educational, health, adaptive skills, and behavioral outcomes through the development of programming based upon the principles of Applied Behavior Analysis (ABA).

## WHY CHOOSE US?

- Full or Part time program options
- Evening courses are available
- Program can be completed in 8 semesters
- Excellent foundation to meet proficiencies mandated by the Behavior Analyst Certification Board (BACB)
